

RECKLI Surface Retarder CemGel KS (positive process)

Texture a cement-based concrete element using an acid-based micro wash gel.

Micro wash gel:

RECKLI CemGel KS (acid content 20 %)

Wash depth:

approx. 0.05 mm

Execution:

Apply RECKLI micro wash gel in accordance with the manufacturer's specifications, and wash off.

Work should be carried out in compliance with the "RECKLI Surface Retarder Broschure"

Recommendation:

After treating with RECKLI CemGel KS, the concrete element should be treated with a RECKLI waterproofing treatment.

Brand: RECKLI surface protection

Usage: in compliance with manufacturer's specifications
