

RECKLI[®] Cleanser 64

RECKLI Cleanser 64

Product 06001

Edition 11/16

acidic façade cleanser

PROPERTIES AND APPLICATIONS

RECKLI Cleanser 64 is a concentrated, liquid, acidic cleanser for removing cement residues, efflorescence, rust stains or several other types of dirt from concrete, artificial stone, plaster, screed, clinker, ceramic, steel or construction equipment. It is free from hydrochloric acid.

Attention!

RECKLI Cleanser 64 must not be used on acid-sensitive substrates, e. g. marble or limestone.

PROCESSING

Remove coarse contaminations with a spatula or a wooden stick from the surface to be cleaned. To achieve a superficial cleaning without penetration into the surface, the relevant area must be well wetted with clear water before the treatment with RECKLI Cleanser 64.

Depending on the type of contamination, RECKLI Cleanser 64 is diluted with clear water in a ratio from 1 : 5 to 1 : 10. It is best applied with a scrubber or a hard brush and, after a short acting time, thoroughly rinsed off. The most appropriate dilution factor and the number of applications should be established in a preliminary test.

CONSUMPTION

Approx. 500 – 1000 g/m², depending on the type of contamination.

PACKAGING SIZES

canisters: 12 kg | bottles: 1 kg.

STORAGE

Store in a dry place at room temperature. RECKLI Cleanser 64 is storable for 6 months from delivery when kept in the closed original packaging at about 18 °C. Opened drums must be closed airtight right after use.

SAFETY

RECKLI Cleanser 64 contains acids. Protect skin and eyes from material splashes. When using this product, always wear protective clothing and eye protection. After contact with the skin or the eyes, wash cautiously with water and immediately
