

RECKLI[®] Formliner Cleanser

solvent mixture, low-aromatic

RECKLI Formliner
Cleanser

Product 08009
Edition 01/23

PROPERTIES

RECKLI Formliner Cleanser is a low viscous mixture of solvents, based on aliphatic hydrocarbons.

APPLICATIONS

RECKLI Formliner Cleanser is used for cleaning the rears of RECKLI structured moulds and formliners or non-absorbent formwork before glueing with RECKLI Formliner Adhesive or RECKLI Formliner Adhesive SO.

Prior to restoring or repairing RECKLI structured moulds and formliners with RECKLI Elasto Filler, the defective spots can be cleaned with RECKLI Formliner Cleanser, if the pollution can not be mechanically removed.

Furthermore, after making separation strips out of RECKLI Stop Off Paste, residues of RECKLI Mould Wax are best removed with RECKLI Formliner Cleanser. However, for cleaning the formliners' front face, in all other cases RECKLI Stripping Wax TL or TL-SO is to be used, thus avoiding subsequent discolouration of the concrete.

RECKLI Formliner Cleanser is not suitable as thinner.

PROCESSING

Prior to glueing, the rear of the formliner and the non-absorbent substrate are thoroughly rubbed off with a clean, lint-free cloth, soaked with RECKLI Formliner Cleanser. The cloth should be repeatedly turned or exchanged ensuring the pollution is entirely removed, not merely evenly spread. Before proceeding, the solvents must have completely volatilized. The evaporation time is approximately 15 – 30 minutes, depending on the temperature and the ventilation. RECKLI Formliner Cleanser should not be poured directly onto the substrate, for this increases the evaporation time. Insufficient volatilizing of solvents may cause a decrease of adhesion strength.

CONSUMPTION

250 ml/m², depending on the level of contamination.

PACKAGING SIZES

cans: 5 l | tins: 1 l.

RECKLI GmbH
Industriestraße 36
D-44628 Herne
Tel +49 2323 1706-0

SAFETY

RECKLI Formliner Cleanser is a flammable liquid. Provide sufficient ventilation in the working place. Do not breathe vapours or mists. Keep away from heat, sparks, open flames or any other ignition sources; do not smoke! Protect skin and eyes from material splashes. Please consult the relevant safety data sheet and attend to the indications on the label of the package regarding the Dangerous Goods Regulation. This pamphlet is intended solely as an application directive. It does not claim to be binding and valid for all modes of application. A preliminary test under operation conditions is highly recommended.

This pamphlet replaces all previously published pamphlets concerning RECKLI Formliner Cleanser, stating them as no longer being valid.
